Company History

With U.S. offices in both Findlay, Ohio and Irvine, California, Pukka combines our overseas proprietary production process with first-class customer service, industry leading product development and creative design capabilities to deliver complete custom headwear solutions at the lowest minimums.

We have been a core supplier of custom headwear and other accessory products to specialty retail brands since 1992. Beyond traditional large volume production, we recognized that small retailers and brands alike continually have a need and demand for total customization capability in low minimum orders. With that in mind, in 2003 we built and launched our unique business-to-business supply chain solution and began fulfilling the need in the golf market. Today we are deeply rooted as a primary vendor in many of the nation's top facilities.

The markets we serve today are endless as we continue to grow our business and share our Be Original® mentality. Whoever has a desire to design their own customized headwear at the lowest minimums offered in the industry, can utilize our unique business model as the solution. We call it Pukka. It's more than just a name! Pukka by definition is: "original, first class, quality," & this meaning embodies every hat that we produce. If you've ever worn Pukka, you know the feeling of headwear perfection. Be Original®.

We Set The Standard

Pukka's 100% Custom Headwear Program was born out of an understanding that independent shops and small brands deserve access to the same custom manufacturing quality and design capabilities traditionally available to only large brands. Our unique supply chain solution includes a production process where the components of every hat are assembled and fully personalized as one process on one production line.

Further distinction includes: 30-Day Production; FREE Artwork Set-Up; FREE Digitizing; Unparalleled Embroidery Quality and Graphic Capabilities; Minimums as-low-as 24 per Style/ 12 per color and fabric combination & the capacity for quick-turn orders.

We've been setting the standard on highest customization at the lowest minimums for over a decade. Setting the standard is our standard.

TOUR

COLLECTION

Leader of the Clubhouse

The industry's only 100% fully custom headwear program gives you the ability to design looks worn on Championship Sunday's by Tour Professionals. Our 48-piece minimum allows you to stock your clubhouse shelves with numerous styles to maximize your product offering.

High Crown Jewel

The High Crown silhouette has made its way into country clubs and the professional game of golf. A high-profile hat has the longest and highest crown allowing the hat to sit higher on the wearer's head. The extra height lets the wearer pull it down lower on their forehead to focus on that next shot.

Inside the Ropes

Sometimes a snapback or trucker look is not complete without the addition of Trucker Rope or Premium Visor Cord. Choose from eight different Trucker Rope color options or step it up by adding one of our five Premium Visor Cord colors. Change up the rope or cord color by the dozen within a 48-piece minimum order.

COLLECTION

Stand Out On or Off the Course

Buffalo Check. Corduroy. Plaid Patterns. Pukka's Custom Headwear Program has over a dozen Specialty Fabrics and numerous color options that will make any hat stand out wherever it's seen. Interchange Specialty Fabrics by the dozen to add a fashion-forward mix to any low minimum order.

High Quality in Low Minimums

Premium Custom Appliques that once were traditionally only available to larger brands can now be ordered in 48-piece minimums. Options like embroidered fabric patches to screen printed leather patches can be affixed to any headwear option. Secure these high quality appliques with five different finishing stitch options.

Wearable Art

Now that signature golf hole can be seen year round thanks to Pukka's Custom Sublimation process that produces vibrant, high-quality, long-lasting imagery fused right into the fabric. Whether it's on the entire hat, front panels or just the visor, trendy patterns or full color photography can now be "wearable art."
