# THE LEGENDARY CANTABRIAN DISCUS

Since its creation for the 1948 Olympics, Cantabrian has been used to win medals and set records on every level of international competition. Accelerate your progress to the podium with an implement whose history and reputation follows the flight path of champions.

**2013:** Used at 2013 World Championships.

**2011:** Cantabrian Gold discus was thrown 237' 5" setting a National Boys High School record.

## Cantabrian Orbit Discus

Cantabrian - Orbit "Composite" Discus - New design Composite plates exceed Carbon plates in Performance, Grip & Durability.

- Combined with improved "Thin" rim design with 87% rim weight which allows for more plate area making for better grip on plate.
- Helps improve control and reduce chance of fingers slipping on release.

Double-sided coaches box offers twice the life.

Extra-tough monster mesh resists tearing. Vinyl-coated polyester yarn offers superior water-repelling characteristics.

Reinforced flaps boast a 3" Velcro locking system.

3 back buns are interchangeable to evenly distribute wear.

Patented Earthcell™ foam is a flexible bio-based alternative to petroleum-based padding. Its superior performance comes from enhanced cell integrity.

Impact-safe cross-tunnel construction distributes impact force over the pit's surface area, helping decelerate the vaulter for a safe landing.

### Double Man Overspeed Trainer

This overspeed training device is the safest overspeed trainer you will find. By attaching this device to 2 runners you can overspeed the runner in back with comfort and security. The back runner allows the front runner to stretch the elastic up to 3 times its length. This then allows the back runner to be pulled forward with the help of the elastic. 20' safety sleeve elastic with 2 swivel belts and stretches to 60'.

**STDOT** UPS 6 lbs. ....\$140.00

### Single Man Overspeed Trainer

Single person overspeed training device. Athlete is attached to anchor and the anchor is attached to a secure object. In order to create resistance the athlete prepares by moving away from the point of anchor. The added resistance pulls the athlete faster forcing the athlete's stride to lengthen and pace to quicken. After the overspeed training device has performed its role, the athlete pulls the quick release strap, and the device separates from him/her. The athlete then tries to maintain that speed and stride beyond the point of anchor. This trainer is 30' long and stretches to 90'.

**STSOT** UPS 7 lbs. ....\$189.00

### "Safety Sleeve"

The "Safety Sleeve" technology system is used on our overspeed training aids for safety and performance. The elastic cord is encased in a heavy webbing to ensure a safe workout. You will find this system on the following products: **STDOT, STSOT, STA105, and STA150.**

### Accelerator 105

Great for keeping athletes low out of the start. Perfect acceleration training aid. The 10' safety sleeve elastic can stretch to 30'. Works both forward and backward. Comes in either 105 to 149 lbs. or 150 lbs. and up. Includes Slastix, one universal harness, and one anchor. Ideal for all athletes.

# THE BEST LINERS FOR YOUR PURPOSE AND YOUR BUDGET.

All Stackhouse four-wheel liners (except LPFP50) use a heavy duty, 20 gauge steel body with an attractive powder coated blue finish. The liner body has been designed so that its wedge shape ensures a constant flow of chalk to the bottom of the liner. Our liner gut, which is driven by the liner wheels, has an auger at each end that forces the chalk into a six-bar expulsion wheel which ensures a consistent flow of chalk. A fingertip control allows you to adjust the

thickness of your line and control shut-off of chalk. The liners ride on rubber diamond-tread wheels that use steel hubs and bearings for minimum rolling resistance. The liners offer both a 2" and 4" line for baseball, football, and soccer fields. These features, combined with the 5 models we offer, allow you to pick the best liner for your purpose - within your budget.

## WALL PADS

## Safety is our highest priority...

Stackhouse Athletic has always believed that safety is the highest priority in any sport. That's why we offer a series of padding for this very purpose. By padding walls, poles, beams and other hard surfaces, you are decreasing the possibility for injury. Padding is most commonly applied in gyms, wrestling rooms and other activity areas. Whether inside or outside, Stackhouse has the padding for all of your needs. See below for Stackhouse padding applications, and if you don't see what you need, please call your local dealer with your specific requirements.

## Wall Pads

Whether you're covering four walls corner-to-corner in a wrestling room, or a wall behind a basketball hoop, our standard wall pads can be made to fit any room. All of our wall pads are made of foam bonded to 7/16" high density oriented strand board (OSB) and covered with 14 oz. vinyl that is folded and stapled to the back of the strand board. 1" lip at the top and bottom of each pad make for easy mounting to any surface. (Mounting hardware provided by installer or end user.) Vinyl is available in colors shown in graph. Special sizes and cut-outs available upon request.
