INDOOR / OUTDOOR ATHLETIC EQUIPMENT

DESIGNED TO PERFORM.
MANUFACTURED TO LAST.™

2 0 2 0

Save on external storage and set-up time with a Ceiling Suspended Volleyball System by Jaypro Sports. This system stores fully assembled and close to the ceiling, is raised and lowered using a 1 HP winch, and is offered with or without an attached referee stand. Additionally, the net height is infinitely adjustable to meet both men's and women's regulation heights.

Ceiling Suspended Volleyball System

Adjustable ceiling suspended system conveniently raises and lowers with a turn-key solution for quick set-up.

- Engraved height markers (0-20" range)
- Net height adjustment handles on uprights
- Exposed posts and frames are fully padded
- With or without referee stand models
- Collegiate net and antennas included

* Call Customer Service for details

System raises to fold in either direction. Specify fold direction when ordering. Dual Posilok™ safety straps automatically lock system in position should a malfunction occur during raising or lowering of unit. Call for freight quote.

Master Equipment Controller 2 (MEC2)

Similar to your touchscreen smartphone, this slick wall-mounted touchscreen is one of the best upgrades for any facility. The MEC2 features intuitive menus to allow anyone to easily program at any point in time, without switches or removal of the screen. Simply put, the MEC2 is the leading economical equipment control system in the industry!

- Low voltage 7" capacitive touchscreen
- Individual or grouped simultaneous operation
- Easily expandable with low cost expansion relay boards
- Protected with multiple tiered access logins
- Simple retrofit from existing methods of operation
- Direct replacement for MEC-99 control system
- Refer to the MEC2 spec sheet for additional information

MEC2

Call for Pricing

Easy Touch Equipment Controller (ETEC)

With all the same benefits as the MEC2, the ETEC features additional unparalleled benefits, making this system the ultimate gymnasium equipment controller in the industry. The ETEC allows you to simultaneously raise your divider curtains and side court backstops, while lowering your main court backstops. The ETEC is truly a must-have control system for large facilities with quick turn-around time.

- Low voltage 10.4" high resolution LCD touchscreen
- Simultaneous up and down operation
- On-the-fly quick selection programming
- Customized facility layouts with intuitive graphical interface
- Instantly saves user programs with the press of a button
- Refer to the ETEC spec sheet for additional information

Gym Divider Curtains

Jaypro Sports offers a variety of functional and attractive divider curtains that help divide any sports facility or institutional space. From power-controlled to manual curtains, we custom design divider curtains for any facility size requirements. Also available in solid vinyl or vinyl coated mesh with several color options.

Fold Up Curtain FC-680

The most versatile and robust curtain in the industry. This curtain uses hoist cables which are weaved through grommets and are attached to the bottom batten. Hoist cables simply roll on the driveline, causing the curtain to fold neatly towards the ceiling in an accordion style fashion.

- Most durable, longest lasting curtain in the industry
- Easiest retractable curtain to install
- Compact fold to maximize clear height

Electric Curtain Winch CW-1800

See page 106 for details

Slope Fold Curtain SC-685

Engineered to fit against the roof frame and conform to virtually any slope while providing maximum clearance for all sporting activities. This curtain can conform to virtually any roof to maximize clearance for all sporting events. Check out the new Field House Slope Fold Curtain (SC-685XL) on page 112. *Call for freight quote.*

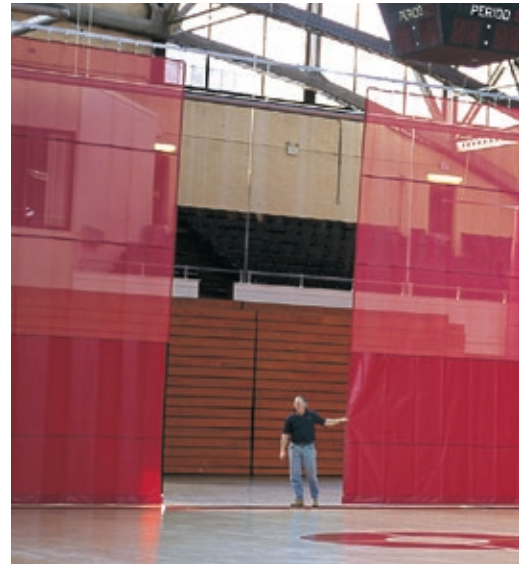

Lowered Position

Raised Position

Walk Draw Curtain WC-660 & WC-660BP

Designed for manual operation, this curtain is moved by pulling it along a ceiling suspended track to store along a perimeter wall. *Call for freight quote.*

Top Roll Curtain TC-701

Uses no hoist cables or straps to raise and lower the curtain and stores tighter than many other curtain designs for additional clearance with low ceilings. When operated, the entire fabric rolls onto the drive pipe. *Call for freight quote.*

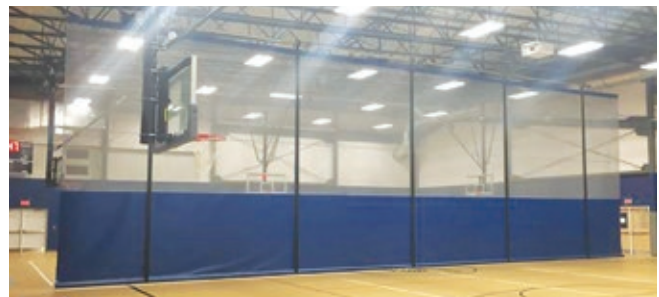

Mini Top Roll Curtain TC-710

Compact curtain system designed to store tight to the ceiling structure by means of an internal tubular motor. Ideal for cafeterias, meeting rooms, stages, or other small spaces. *Call for freight quote.*

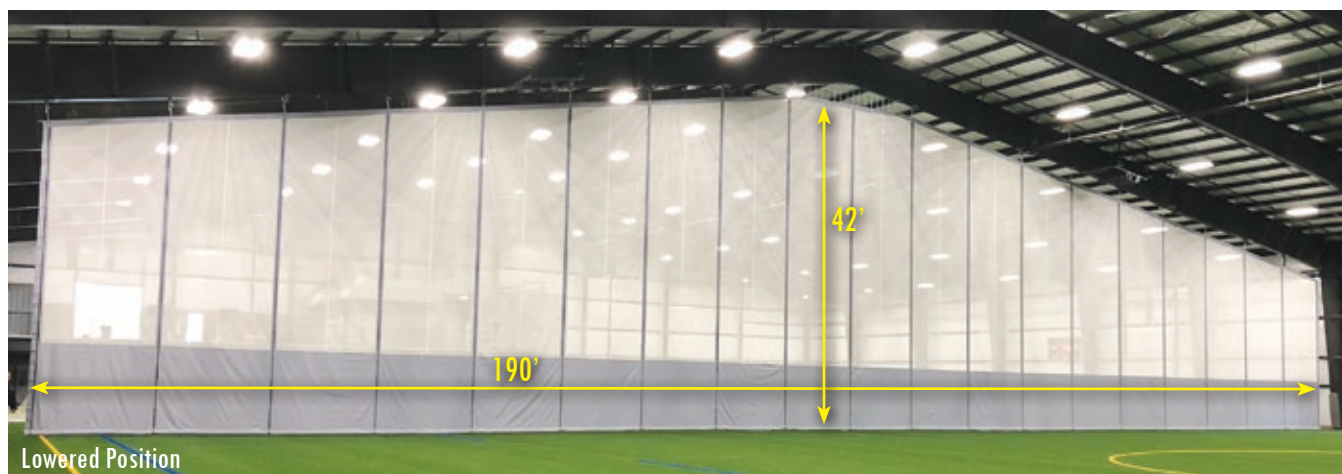

Roll Up Curtain RC-690

Raised and lowered by heavy-duty hoist belts and stores in a 2' storage space close to the building structure. When operated, hoist belts roll the fabric onto the bottom batten. *Call for freight quote.*

Field House Slope Fold Curtain SC-685XL

Engineered to fit against the roof frame and conform to virtually any slope while providing maximum clearance for all sporting activities. This mega curtain utilizes dual synchronized winches with a low voltage controller. This curtain can conform to virtually any roof to maximize clearance for all sporting events. Pictured below, this SC-685XL curtain measures 190' long and 42' high at the peak and raises to the ceiling in 75 seconds. *Call for freight quote.*

Lowered Position

Raised Position

Perimeter Fold Up Curtain FC-680P

Jaypro Perimeter Curtains are ideal for completely following the inside or outside perimeter of running tracks within multi-use facilities and field houses. These curtains are designed to separate the running track from interior basketball or volleyball courts, thereby maximizing facility use and flexibility. Adjoining curtains are overlapped and offset to allow for easy egress. *Call for freight quote.*

Motorized Netting

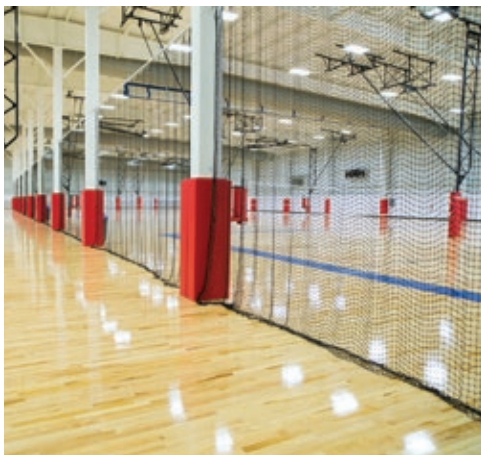

Safety netting systems are designed to protect spectators or create safe passageways outside the field of play. A complete surround netting system can be used to seal off a court or field for ball containment. Netting can enclose the perimeter of a facility as well as create a ceiling. Netting systems can be motorized or stationary. Contact Jaypro's estimating department to help design a solution for your netting needs. *Call for freight quote.*

Visit JAYPROSPECS.COM
for product specifications

Protective Stationary Netting

Jaypro makes nets to separate outdoor athletic fields in large complexes and to divide indoor athletic facilities. We also provide complete perimeter and ceiling netting protection for your athletic facility. Our netting is found on tennis courts, basketball courts, soccer fields, and golf courses. Everything we make is customized to your needs as no two facilities are alike. Call or e-mail us to discuss your project. *Call for freight quote.*

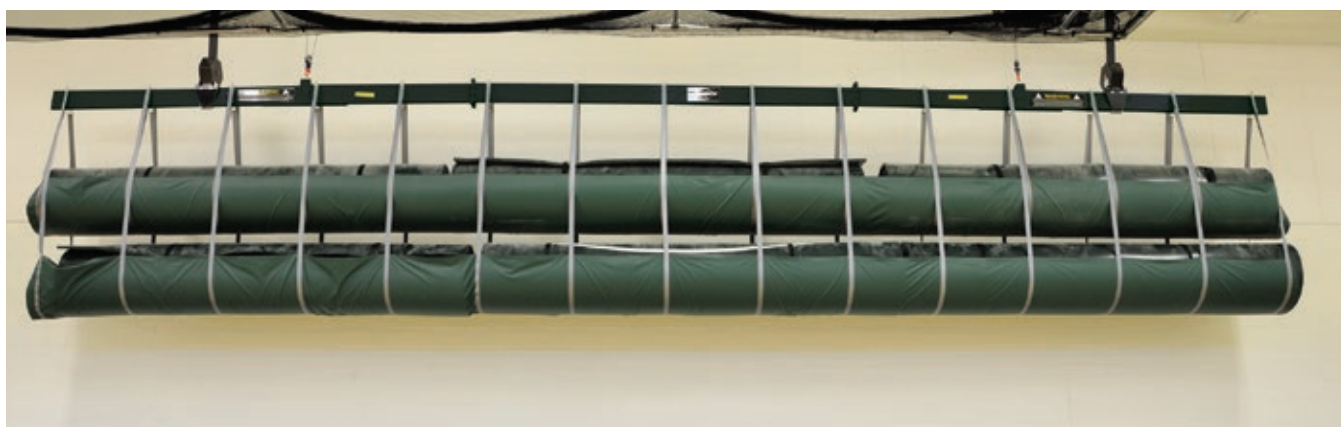

Securelift™ Wrestling Mat Storage Systems

Eliminate risk of injury to students, athletes and coaches from manual lifting and transporting of heavy and awkward mats. Gain valuable storage space and extend the life of your wrestling mats. Simply roll the mat(s) onto the sling, attach the sling to the load bar, turn the key to raise the unit and store at ceiling height. Call for details and pricing.
