# PHYSICAL EDUCATION

## *Student Tested. Student Approved.*

From basic products that can stand the test of institutional settings to sensory exploration and active play, 360's Physical Education products have been used for decades throughout North America. Our physical education equipment selection is incredibly versatile and is constantly evolving to suit the needs of today's educators.

Students of today face a gamut of issues that can be addressed with encouraging psychomotor learning in a play or movement exploration setting. The benefits of physical activity have become increasingly apparent through current research and studies.

360 Athletics is proud to present a lineup of products that are safe, inclusive and fun for anyone of any age. For more information, do not hesitate to contact us!

## *Start Them Off Early. Start Them Off Fit.*

360 Athletics believes that by starting kids off young in a fitness-centric program, they become more aware of the importance of being physically active and build new habits that they will have for their entire lives.

The Kid-Fit Program features products that are safe and suitable for beginner users and can be used to educate them on the importance of building a healthy self-esteem while getting fit and having fun. Mind/body connections are made while fun and simple activities are performed. There is no competition in Kid-Fit, so it is inclusive, and kids will learn the value of being active.

Products in the Kid-Fit Program have been tested with kids and educators and can be adapted for use with any special population. The products are also great for warm-up drills or to build certain athletic skills with younger players.

Goodlife Master Trainers - Canfitpro 2017

Goodlife Master Trainers - Canfitpro 2017

COREFX® Education is based on a training and coaching methodology founded on building athleticism. The training foundation is built on stabilization, rotation, balance and integrated, whole body coordination. Drill and technique progressions transfer to real-life and sport, and from fitness enthusiast to professional athlete. COREFX® Education is rooted in science and practical application, but also focuses on the right mix of individual training, small group training and partner challenge experiences to round out program design that is fun, engaging and complete.

GLOVE SIZE CHART

Measure the circumference of your flat hand just under the knuckles (not including your thumb). Our gloves are generally snug-fitting. The real leather is designed to stretch out over the life of the glove. If you are between sizes, we recommend that you select the larger of the two sizes. If you prefer a looser fitting glove, buy one size larger than you typically wear.

# RUNNING SPECIFIC

## Start and finish your run

These socks will guarantee the runner a smooth and comfortable run by staying put in the shoe, wicking away moisture and featuring new blister resistant fibre technology.

Of course, every runner understands that hydration is paramount to having a good run. FuelBelt offers the lightest and most comfortable water bottles on the market along with accessories made specifically with runners in mind.

**FuelBelt®**  
STAY HYDRATED

The world leader in hydration belts and running accessories. FuelBelt is the first to introduce the multi-bottle belt, low profile handhelds, and high performance accessories which has redefined hydration.

6 KEY BALEGA DELIVERABLES:

1. SECOND SKIN FIT

A sock must fit snugly to ensure no movement on the foot. Movement causes irritation; irritation causes blisters. End of discussion...
2. DEEP HEEL POCKET

Socks creeping down in your shoes – your worst nightmare. Knitting up to 30% more stitches into the heel or adding more heel branches, deepens the heel pocket to ensure your heel is fully cupped and protected, and that the lateral stretch from bridge to heel is optimal.
3. PROPRIETARY “DRYNAMIX” MOISTURE MANAGEMENT FIBER

Supersoft moisture management fiber, developed exclusively by Balega, wicks moisture away rapidly, keeping you cool and dry all day long.
4. SEAMFREE COMFORT

Seams cause friction, friction causes blisters. Who needs them? Balega’s hand linked toe seams will give you the ultimate in seam-free comfort.
5. VENTILATION PANELS

Strategically placed ventilation panels aid in the cooling and wicking process. Need we say more?
6. HAND INSPECTION

Every pair of Balega is hand inspected by our dedicated quality inspection teams and pre-washed before packing.

ABOUT BALEGA SOCKS

Balega prides itself on the fact that all of their products are developed and tested at their South African production facility. The development team is made up of all types of athletes who regularly compete in events ranging from the Comrades and Two Ocean’s ultra marathons to many other shorter distance events both on and off road in South Africa and abroad.

They offer real benefits to athletes of all ages and abilities.

All of their socks incorporate a hand linked toe closure which eliminates abrasion across the top of the foot. They also knit an extra deep heel pocket, or ‘Fit Well’, ensuring that their socks fit the foot perfectly and don’t slide during activity.

We offer many thicknesses of socks depending on preferences and fit requirements, all of which are constructed with Balega’s own trademark fibers.

SIZE CHART
